

```
rcombinator::RandMaths  
::sample_distinct_pair
```

```
graph LR; A["rcombinator::RandMaths  
::sample_distinct_pair"] --> B["rcombinator::RandMaths  
::rand_int"]
```

A diagram showing a call to the `sample_distinct_pair` method of the `rcombinator::RandMaths` class. A blue arrow points from this call to a call to the `rand_int` method of the same class.

```
rcombinator::RandMaths  
::rand_int
```
