

rcombinator::RandMaths
::sample_without_replacement

```
graph LR; A["rcombinator::RandMaths  
::sample_without_replacement"] --> B["rcombinator::RandMaths  
::rand_int"]
```

A diagram showing a call to the `sample_without_replacement` method of the `rcombinator::RandMaths` class. A blue arrow points from the left box to the right box, indicating the method's internal call to the `rand_int` method.

rcombinator::RandMaths
::rand_int
